

TEJ Salon and Spa — Allen, Ikeja

19 Adeleke St, Allen, Ikeja 101233, Lagos · Hair salon · What a customer sees when they search for you on Google

1. WHAT A CUSTOMER ACTUALLY SEES

This is your Google Maps listing, read the way a first-time customer reads it on a phone. Every line below was observed on the live listing on 7 October 2026 and can be re-checked at the link in the footer.

FIELD	STATUS	WHAT THE CUSTOMER GETS
Listing claimed	Claimed	You control this listing. This is the hard part and it is already done.
Phone number	Present	A contact number shows on the listing, so a customer who wants to book can call you.
Opening hours	Present	Hours display correctly, including the day and time you reopen.
Website / link	Missing	Google displays "Add website". There is no link out to your services, prices or gallery.
Photo section	Prompt shown	The listing displays Google's "Add photos & videos" prompt. That prompt appears when the listing is not carrying a substantial set of owner-supplied photos.
Instagram / social link	None	No Instagram, Facebook or booking link on the listing.

Observed directly on the Google Maps listing for TEJ Salon and Spa, 19 Adeleke St, Allen, Ikeja, on 7 October 2026.

2. THE GAP, STATED PLAINLY

Most of the work is already done. You have claimed the listing, a contact number is on it, and your hours are correct. Plenty of salons in Ikeja have not managed that.

What is missing is the **link**. When a customer in Allen searches "hair salon near me" and taps your listing, they get your name and a number to call, and nothing else. No prices, no list of services, no photos of your work, no way to judge whether you do what they want before they ring. The customer choosing between three salons on that same screen has nothing to look at from you.

The one-line version: your listing gets the customer to the phone call, but it gives them no reason to prefer you over the salon listed underneath. One link fixes that, and it takes about 20 minutes.

3. FIRST THREE FIXES, IN ORDER

- Fix 1 — Put a link on the listing**

Open the listing in Google Maps, choose "Add website", and paste a link. If you have no website, your Instagram profile or a free one-page site works. This is the single highest-value change: it turns a name-and-number listing into something a customer can actually evaluate. Roughly 10 minutes.
- Fix 2 — Add photos of your work**

Upload finished styles, the space, the team, and the entrance so people recognise it from the road. The listing is showing Google's "Add photos & videos" prompt, which is the signal that it is not carrying a substantial set of owner-supplied imagery. Salons are chosen on visuals. You can do this from your phone between clients.

Fix 3 — Ask your regulars for a review

The listing has a "Write a review" button. Ask ten regulars this week for an honest review. Review volume is one of the signals Google uses to decide who appears first in local search, and it compounds over time — a review you collect this month keeps working next year.

4. WHAT THIS IS WORTH TO YOU

You are paying rent on 19 Adeleke St and paying for your team every month. The listing you already own is free and it is currently the weakest version of itself. Fixes 1 and 3 cost nothing. Fix 2 costs nothing but an afternoon.

There is no charge for this audit and no obligation. If you would rather have someone do the three fixes with you than read about them, that is what we do — Google Business Profile setup from ₦15,000.
